Reviewer’s report

Title: The social context of smoking: A qualitative study comparing smokers of high versus low socioeconomic position.

Version: 1 Date: 10 March 2010

Reviewer: Giuseppe Gorini

Reviewer’s report:

Discretionary Revisions:
Add one or two sentences in conclusions where you state that:
"Even though not supported by quantitative figures, these results may be suggestive for future quantitative research on differences in social context of smoking among different socio-economic groups, and in designing interventions aimed to reduce socio-economic gap in smoking cessation."

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
