Reviewer's report

Title: "Cough officer screening" improves detection of nosocomial pulmonary tuberculosis

Version: 3 Date: 24 March 2010

Reviewer: Cynthia Bin-Eng Chee

Reviewer's report:

The revised title is not appropriate. The term "nosocomial" refers to hospital-acquired infection. This study refers to detection of pulmonary TB in hospital in-patients.

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
