Reviewer's report

Title: Subclinical Hyperthyroidism and Dementia: the Sao Paulo Ageing & Health Study (SPAH), a cross-sectional study.

Version: 2 Date: 27 April 2010

Reviewer: massimo musicco

Reviewer's report:

The authors have done a serious work of revision of their paper according to the suggestions of this reviewer. They have answered, in a consistent and convincing way, to the many observations raised by me and the other 3 reviewers. The revised paper is to me greatly improved with respect to the original version.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
