Title: Comparison of primary care experiences among adults in community health clinics (general outpatient clinics) and private general practice clinics in Hong Kong

Version: 5 Date: 16 April 2010

Reviewer: Graham C.M. Watt

Reviewer's report:

When the tracking is removed from this re-submitted manuscript, the remaining text is full of grammatical and typographical mistakes - not in a fit state for review. I suggest that the authors submit a tracked and non-tracked version, satisfying themselves first that the non-tracked version is in a satisfactory state.

Level of interest: An article of importance in its field

Quality of written English: Not suitable for publication unless extensively edited

Statistical review: No, the manuscript does not need to be seen by a statistician.
