Title: Reforming Sanitary-Epidemiological Service in Central and Eastern Europe and the Former Soviet Union: An Exploratory Study

Version: 2 Date: 29 April 2010

Reviewer's report:

This is a very interesting paper describing tendencies in this field of ph. Its descriptive nature is however a little bit disappointing. I kindly would ask the authors to explain - at least briefly- the major themes so far, or give their ideas what is the reason of these developments.
