Reviewer's report

Title: Factors associated with excessively lengthy treatment of tuberculosis in the eastern Paris region of France in 2004.

Version: 3 Date: 23 July 2010

Reviewer: Douglas Fraser Wares

Reviewer's report:

The authors have addressed my concerns raised in my second review of the manuscript and it's publication should now go ahead

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
