Title: Cesarean and VBAC Rates among Immigrant vs. Native-Born Women - A Retrospective Observational Study from Taiwan

Version: 1 Date: 11 May 2010

Reviewer: wai C yoong

Reviewer’s report:

Well researched paper and contributes to immigrant medicine. Large database but my main question to the authors is as follows:

1. is there any evidence that Taiwanese women are ethnically and racially different from Chinese women?

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
