Reviewer's report

Title: Completeness and timeliness of Salmonella notifications in Ireland in 2008: a cross sectional study

Version: 3 Date: 15 July 2010

Reviewer: Lisa King

Reviewer's report:

The revised article is much clearer for the reader. The enhanced description of the Irish surveillance system helps the reader better understand the logic behind time intervals defined for evaluation. The revised figure 1 is informative and clear.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
