Reviewer's report:

- Major Compulsory Revisions
  None.

- Minor Essential Revisions
  The author can be trusted to make these. For example, missing labels on figures, the wrong use of a term, spelling mistakes.

- Discretionary Revisions
  I would suggest using a word other than trajectories for the different stages of help seeking behaviour. Trajectory is a pathway, whereas the stages described are discrete steps. The use of trajectory implies there is a pathway within each step.
