Reviewer's report

Title: "I am pregnant and my husband has diabetes. Is there a risk for the foetus?" A qualitative study of questions asked by email about the role of genetic susceptibility to diabetes

Version: 2 Date: 5 October 2010

Reviewer: David Whitford

Reviewer's report:

I am happy that the authors have adequately addressed my previous comments. There are still a few spelling mistakes in the text.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
