Reviewer’s report

Title: Correlates of STI-testing among vocational school students in the Netherlands

Version: 2 Date: 16 September 2010

Reviewer: Winnie Luseno

Reviewer’s report:

Minor essential revisions
1) Make sure that the tables are labelled and follow sequentially.

2) Background, paragraph 6: "Possible background variables for STI-testing ... [insert participation in] interventions that promote..., [insert perceived] accessibility and availability] of testing services, ..."

3) Methods, Measures. Please qualify what you mean by items measuring 1) relationships. How were these items different from 4) and 5)?

4) Results, Psychosocial determinants of STI testing. The first sentence of the second paragraph is not clear.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
