Reviewer's report

**Title:** Age at menarche in Canada: results from the National Longitudinal Survey of Children & Youth

**Version:** 1  **Date:** 24 August 2010

**Reviewer:** Bradford Towne

**Reviewer's report:**

This is a nicely presented survey of current age at menarche of a large sample of Canadian girls representing all provinces in Canada, including consideration of various factors possibly associated with the timing of menarche. As such, it is a useful contribution to the field.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**

I declare that I have no competing interests.
