Comments to authors:

1. On page 6, at the last line running onto page 7: It appears that a couple of words may have been omitted from this sentence. It seems as though it should read “A set of questions about material assets was asked of each household, . . . “ It also appears (on page 7) that the ending of this sentence may have become a bit jumbled. I suggest either deleting everything after the last comma, or revising this last part of the sentence to make it grammatically complete. Please correct.

2. In the tables the “food security” column (1st column) actually refers to food insecurity; at least the two terms “moderate” and severe” do. So I suggest you change the column heading to “Food Insecurity”.
