Reviewer’s report

Title: Is there an impact of public smoking bans on self-reported smoking status and exposure to secondhand smoke? Do smoking bans decrease exposure?

Version: 5 Date: 22 January 2011

Reviewer: francesco barone-adesi

Reviewer’s report:

The authors addressed the issues raised in my previous review, and I think that the paper is now worthwhile of been taken into consideration for publication.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
