Reviewer's report

Title: Improving detection and notification of tuberculosis cases in students in Shaanxi province, China: an intervention study

Version: 2 Date: 14 December 2010

Reviewer: Ari Probandari

Reviewer's report:

I had read through answers from the authors in regard to major and minor essential revisions I suggested. The authors had incorporated my major suggestions into the revised manuscript.

Moreover, I suggested the authors to put a code of 'unpublished data' when they refer to the China National Tuberculosis Control Program data which are not shared publicly.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
