**Version:** 2 **Date:** 8 February 2011

**Reviewer's report:**

Major Compulsory Revisions None

I appreciate the efforts of the authors to fully address reviewer critiques.

Minor Essential Revisions several wording/typos for instance: page 5 in para Mentor recruitment and training: should read "the major criterion was that mentors be mothers" page 6 a bullet point is missed. Page 7 Authors should reference publication on mentors experiences. The new phrase on page 9 "had taken up new or ..." is still awkward and could be clarified.

**Level of interest:** An article of importance in its field
