Reviewer's report

Title: Children who were vaccinated, breast fed and from low parity Mothers live longer: A community based case-control study in Jimma, Ethiopia

Version: 3 Date: 30 November 2010

Reviewer: Anna Berti

Reviewer's report:

30.11.2010

Having read the reviewed version of the article and the answers to my comments, I think that the article might be published eventhough the main interest remain for the National/Local level.
The focus on health services accessability has to be well underlined.
Some minor language corrections are still needed.
Anna Berti, MD

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
