**Title:** Malnutrition among children under the age of five in the Democratic Republic of Congo (DRC): does geographic location matter?

**Version:** 3  **Date:** 20 January 2011

**Reviewer:** Marek Brabec

**Reviewer's report:**

The authors carefully incorporated the suggestions contained in the previous review (and documented the changes nicely both in the Cover letter and in the paper itself). The paper is now much better to read and also more precise, in certain formulations. The paper is ready to be published.
