Reviewer’s report

Title: Perceptions about sexual abstinence and knowledge of HIV/AIDS prevention among in-school adolescents in a western Nigerian city

Version: 2 Date: 17 November 2010

Reviewer: Kristen Underhill

Reviewer’s report:

The authors have done fantastic work addressing the many comments from my original review. I recognize that these revisions were demanding, but this work has paid off in the revised manuscript. The study is now much clearer and stronger, and the findings are now better situated in the literature as a whole. The attention to detail in these revisions is impressive, particularly in the Methods section, the Introduction, and the Discussion/Conclusions. The abstract is much more useful with the additional details, and the expanded Results section including focus group findings is excellent. I'd recommend one last check for typos and grammar, since there were a handful of these small errors throughout (e.g., "data" should be plural, "strenght" should be corrected on page 21). However, I am very pleased to recommend publication.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
