Reviewer’s report

Title: Television viewing, food preferences, and food habits among children: A prospective epidemiological study

Version: 2 Date: 11 February 2011

Reviewer: Giovanna Fiates

Reviewer’s report:

The paper has been substantially revised since it was first submitted. The authors have managed to deal with the issues raised by the reviewers. The revised manuscript has been improved, and the content and structure are now much more clear and coherent.

I think the manuscript provides interesting and valuable results and in my point of view, has achieved publishable standards.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
