Reviewer’s report

Title: Analysis of timeliness of infectious disease reporting in the Netherlands

Version: 3 Date: 14 March 2011

Reviewer: Hyo-Soon Yoo

Reviewer’s report:

While the concept of this paper is original and important one, tables are still not readable despite it was asked for major compulsory revision at the first review. They are too complicate and have much redundant information within tables, it reduces potential value of this paper.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
