Reviewer's report

Title: Uptake and outcomes of a prevention-of mother-to-child transmission (PMTCT) program in Zomba district, Malawi

Version: 3 Date: 18 May 2011

Reviewer: Nyaradzai Edith Kurewa

Reviewer's report:
reviewer: Nyaradzai Edith Kurewa
The paper is now acceptable for publication.

• Discretionary Revisions (which are recommendations for improvement but which the author can choose to ignore): Revisions were correctly done and responded to.

• Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct): These were addressed and corrected.

• Major Compulsory Revisions (which the author must respond to before a decision on publication can be reached): These were addressed and corrected appropriately.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
