Title: Perceptions and Knowledge of Cancer Patients towards Cancer and its treatment. A Qualitative study from Malaysian Cancer Patients

Version: 1 Date: 18 March 2011

Reviewer: Shiyam Kumar

Reviewer's report:

Major Compulsory revision:
1. The study methods need to be expanded. The authors should report how the patients were selected for inclusion in the study. Were all patients approached? How was eligibility determined and by whom?
2. Additional details of the statistical analysis should be included.
3. Impact/effect of background education on the perceived thoughts needs to be explained clearly.
4. Questions were validated and how??

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
