Reviewer's report

Title: Access to healthcare and alternative health-seeking strategies among undocumented migrants in Denmark

Version: 3 Date: 24 May 2011

Reviewer: Heide Castaneda

Reviewer's report:

The authors have answered my previous points sufficiently well, and the manuscript is stronger with the changes suggested by all of the reviewers. I have one additional format change I would like to recommend.

Discretionary Revisions

Not all of the figures (Boxes) are necessary or helpful. Specifically, I would strongly suggest eliminating Boxes 3, 4, and 5, as they are very abbreviated and do not add much to the article nor to the larger existing literature.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
