Title: Explaining gender differences in non-fatal suicidal behaviour among adolescents: a population-based study

Version: 2 Date: 15 July 2011

Reviewer: Antonia Bifulco

Reviewer’s report:

This is a re-review of a paper I previously gave a positive response to, but with some extra suggested points for the discussion. The authors have responded to my points well and also to the points made by other reviewers. I do not think it needs any additional improvements.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
