Reviewer's report

**Title:** Peer education: The effects on knowledge of pregnancy related malaria and preventive practice in women of reproductive age in Edo-State, Nigeria.

**Version:** 2  **Date:** 20 July 2011

**Reviewer:** Tanya J Marchant

**Reviewer's report:**

Apologies for the delay. I have now reviewed the revised manuscript and recommend it is accepted. The authors have made important changes so that their methodology is clear and the discussion is consistent with their results.
