Reviewer's report

Title: Nationwide shifts in the double burden of overweight and underweight in Vietnamese adults in 2000 - 2005: two national nutrition surveys.

Version: 3 Date: 14 December 2010

Reviewer: MMH Khan

Reviewer's report:

Minor Essential Revisions

The authors added the results of multiple multinomial logistic regression. However, the description of this method is very short and should be discussed more.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
