Reviewer's report

Title: A school-based resilience intervention to decrease tobacco, alcohol and marijuana use in high school students: a pilot study

Version: 2 Date: 10 April 2011

Reviewer: Martin Wong

Reviewer's report:

The authors have revised the manuscript according to the comments of referees. These include the contextual framework which justifies the study, report on the characteristics of the region where the study was conducted, and the methodological issues which have been raised in the discussion session. I have no further comments. This article will be of interests to inform future studies on school health, and help formulate school-based policy.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
