Reviewer's report

Title: Prevalence and socioeconomic correlates of overweight and obesity among Pakistani primary school children

Version: 2 Date: 9 September 2011

Reviewer: Carina Novais

Reviewer's report:

The authors have answered the required questions but they didn’t answer this question: “What way your study is different and contributes to enhance our knowledge?”

The article modifications introduced by the authors are well defined. The discussion and conclusions are well balanced and adequately supported by the data. The authors add important results and they focused with detail the relation between gender and socioeconomic area. The limitations of the work are clearly stated, the page 13 shows this important

Quality of written English: Acceptable
