Reviewer's report

Title: Integration of priority population, health and nutrition interventions into health systems: systematic review

Version: 2 Date: 6 August 2011

Reviewer: Helena Legido-Quigley

Reviewer's report:

The authors have addressed the suggestions made in my first review. They have described how titles were assessed and compared included the inter rate agreement score; they have included the inclusion and exclusion criteria; and they have added information on how the data extraction has been conducted by the authors.

As I mentioned in my earlier review, I would not hesitate in recommending this paper for publication.
