Reviewer's report

Title: Chain of care for patients who have attempted suicide: a follow-up study from Baerum, Norway.

Version: 1 Date: 27 September 2010

Reviewer: Kirsi Suominen

Reviewer's report:

This study examined if suicide attempters assisted by a suicide prevention team organized by the community health services have a similar risk of repeated suicide attempts and/or suicide than individuals who were not assisted by this team. The topic is interesting and the manuscript is well written.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
