Reviewer’s report

Title: Secular trends of macrosomia in southeast China, 1994-2005

Version: 2 Date: 26 August 2011

Reviewer: Seppo Tapani Heinonen

Reviewer’s report:

The key message of the paper is interesting while it shows what is going on in China in terms of obstetrics. The paper is still a bit long, but the revision so far have made the paper much stronger.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
