**Reviewer's report:**

Minor Essential Revisions
Authors should specify the range of responses to statements - was a Likert scale used or was it a Yes/No answer?
Some commentary on the almost 40% of health professionals who said they had not been taught about risks of smoking must be made.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Needs some language corrections before being published

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
