Reviewer’s report

Title: Determinants for return to work among sickness certified patients in general practice

Version: 2 Date: 12 October 2012

Reviewer: Harald Reiso

Reviewer’s report:

The authors have revised their manuscript according to advise given. Good. They argue well for comments not taken in to change the manuscript. We will not come to agreement concerning arguments about factors that may be associated with outcome, but not have effect on outcome.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
