Reviewer’s report

Title: Progress towards implementation of ACT malaria case-management in public health facilities in northern Sudan: a cluster-sample survey

Version: 2 Date: 21 November 2011

Reviewer: Beth Kangwana

Reviewer’s report:

The authors have answered all my concerns.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:

I am an employee of KEMRI Wellcome Trust Research Programme and work in the same department as four of the authors on the paper. However I had no prior knowledge of the research and only became aware of it when I was asked to review it by BioMed Central. I have had no direct communication with any of the authors regarding the research or the manuscript.
