Reviewer's report

Title: Comparing HIV prevalence estimates from prevention of mother-to-child HIV transmission programme and the antenatal HIV surveillance in Addis Ababa

Version: 2 Date: 21 October 2012

Reviewer: Andrea Kim

Reviewer's report:

The authors have done an excellent job in responding to the comments raised, and I feel the manuscript has greatly improved. I have no additional comments.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests
