Reviewer’s report

Title: Does physical activity counselling enhance the effects of a pedometer-based intervention over the long-term: 12-month findings from the Walking for Wellbeing in the West study

Version: 6 Date: 14 February 2012

Reviewer: Carla Moreira

Reviewer’s report:

The authors have properly raised all the issues suggested in my previous report. Therefore, I think the manuscript has improved and it is adequate for publication.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
