Reviewer's report

Title: Alcohol drinking patterns among high school students in Ethiopia: A cross-sectional study

Version: 2 Date: 27 February 2012

Reviewer: R. Patti Herring

Reviewer's report:

I stand by my first review in that this is a very good manuscript that I believe addressed a very important issue.

I believe that the written English is acceptable.

In terms of the statistical review, I do not feel qualified to assess the statistics but I am able to read and understand the statistical methods employed and the results, and I believe the necessary information was supplied and were accurate.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I have no competing interest.
