Reviewer's report

Title: Time trends in social differences in nutrition habits of Lithuanian population: 1994-2010

Version: 3 Date: 14 February 2012

Reviewer: Laura Paalanen

Reviewer's report:

The comments I provided earlier have been very well acknowledged. However, I suggest that you read your manuscript once more and correct small errors in the language. E.g. Background: "Different kinds of vegetable oil and margarine, as well as fresh fruit and vegetables, become easily accessible" -> became. Results: "Analyses of pooled data from all surveys showed nutrition habits were associated with education" -> showed that...

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:

I declare that I have no competing interests.
