Reviewer's report

Title: Prevalence and Determinants of Chronic Kidney Disease in Community-Dwelling Elderly by Various Estimating Equations

Version: 3 Date: 8 March 2012

Reviewer: Pierre Delanaye

Reviewer's report:

The authors have largely improved their manuscript. We have still one remark.

We think the performance of the creatinine-based equations are not so obvious in elderly subjects. We clearly need additional studies on the topic in this specific population.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
