Reviewer's report

Title: Cardiovascular diseases and Type 2 Diabetes in Bangladesh: A review of studies between 1995 and 2010.

Version: 1 Date: 21 January 2012

Reviewer: Isabela Bensenor

Reviewer's report:

Although the authors included more information in methods section it is not clear:
1. Why some studies were excluded from the analysis. What signs "only patients study?"
2. The text needs more connection among its different sections. There is too many interruptions and subtitles.
3. Some items are repetitive.
4. It is not clear after a careful reading what this manuscript could add to previous literature.
5. Why the authors did not consider as important a comparison with other except India

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
