Reviewer’s report

Title: Elevation and Cholera: An Epidemiological Spatial Analysis of the Cholera Epidemic in Harare, Zimbabwe, 2008-2009

Version: 2 Date: 8 May 2012

Reviewer: Emmanuelle Chevallier-Portalez

Reviewer’s report:

This manuscript analyses the effect of elevation on cholera incidence in Zimbabwe.

The authors answered quite well to my original report which concern was the highlight of the link between elevation and sewage disposal system in such an area in developing countries.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
