Reviewer's report

Title: Acceptability of condom promotion and distribution among 10-19 year-old adolescents in Mwapwa and Mbeya rural districts, Tanzania

Version: 1 Date: 11 May 2012

Reviewer: Esther Dungumaro

Reviewer's report:

Minor Essential Revisions
1. Review more relevant literature
2. Provide HIV/AIDS prevalence rates by regions for readers to better understand grounds for your choice of areas of study.
3. Present analysis by areas (Mbeya and Mwapwa) differently to inform any differences/similarities in condom acceptance.
4. Present social, economic and cultural characteristics of the two areas and try to relate with results (acceptance of condom use or otherwise)

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
