Reviewer's report

Title: Mental Health, Duration of Unemployment, and Coping Strategy: a Cross-Sectional Study of Unemployed Migrant Workers in Eastern China during the Economic Crisis

Version: 2 Date: 11 June 2012

Reviewer: Marcia Scazufca

Reviewer's report:

The only comment I have now is that you should include in the manuscript how the sample size was calculated. Also, the English could be reviewed. (e.g. much inferior mental health is not usually used)

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
