Reviewer's report

Title: Availability of exercise facilities and physical activity in 2,037 adults: cross-sectional results from the Swedish Neighborhood and Physical Activity (SNAP) study

Version: 2 Date: 23 May 2012

Reviewer: Ester Cerin

Reviewer's report:

The authors have addressed this reviewer's concerns.

Minor essential revisions

I have noticed a typo: Page 12, 1st line: 'availability of exercise' should read 'availability of exercise facilities'.

When the authors mention bootstrapping methods, they should specify that they used cluster bootstrapping (to differentiate it from the 'standard' bootstrapping techniques.)

Thank you.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
