Reviewer’s report

Title: The Cedar Project: Rapid increase of HCV infection in a longitudinal study of young Aboriginal people who use drugs in two Canadian cities

Version: 4 Date: 11 May 2012

Reviewer: Meghan Morris

Reviewer’s report:

The authors do an excellent job responding to all comments raised during the initial review. I have no new major questions/comments.

Minor Essential Revisions:
1. please check that the sample size is correct from page 8: "Overall, 605 (300 in Vancouver and 300 in Prince George) young Aboriginal people..." as the math doesn't quite add up.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
