Reviewer's report

Title: Idiopathic Environmental Intolerance attributed to Electromagnetic Fields (IEI-EMF): A systematic review of identifying criteria.

Version: 3 Date: 14 June 2012

Reviewer: Stacy Eltiti

Reviewer's report:

Dear Editor,

The authors have systematically addressed both Dr. van Rongen and my concerns and have made all the necessary corrections. The paper still contains several grammatical errors, which need to be corrected (perhaps through copy editing) before it is ready for publication.

Sincerely,
Stacy Eltiti

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
