Title: Medical Expenditures Associated with Nonfatal Occupational Injuries among Immigrant and U.S.-born Workers

Version: 3 Date: 22 May 2012

Reviewer: John D Meyer

Reviewer’s report:

This revision is acceptable, and I believe the article is publishable in its present form. The authors have responded appropriately to the previous critiques. In responding to the last review, they raise some interesting points about the shift in payment sources for immigrant workers to other forms of insurance, which is a newer and novel finding and may be a useful point for further research.
