Reviewer's report

Title: Inequalities in mortality among refugees and immigrants compared to native Danes - a historical prospective cohort study

Version: 3 Date: 3 July 2012

Reviewer: Itamar Santos

Reviewer's report:

The authors have answered adequately the comments made and adapted the text. Two minor questions still need to be readdressed:

1. Please review the sentence: “Therefore, individual level data is not as we used are not openly available.”

2. In conclusion, “Preventive strategies could extend to screening for diabetes and cancer-related infectious diseases among risk groups upon arrival” cannot be advised based on the results of the present work, so this sentence must be suppressed.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
