Title: Emergency Management in Health: Key Issues and Challenges in the UK

Version: 2 Date: 19 July 2012

Reviewer: Ali Asgary

Reviewer’s report:

Major compulsory revisions
1. There is a need for a literature review section in the paper. This would further clarify that much research has been done in the world in this area and some of the observations made in this paper reenforced the previous findings.

Discretionary Revisions
1. Keywords need to be revised, most of these keywords are used interchangeably. More specific keywords would be useful

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
